THE WORLD DIABETES CONGRESS 2013

The World Diabetes Congress is one of the world’s largest health-related events. It brings together healthcare professionals, diabetes associations, policy-makers and companies to share the latest findings in diabetes research and best practice.

DATES & LOCATION

2 to 6 December 2013
Melbourne Convention and Exhibition Centre (MCEC)
Melbourne, Australia

AGENDA

This biennial congress features a strong scientific programme combining diabetes lectures with debates and workshops. Other related activities include satellite symposia and exhibitions. All of these events will create an excellent environment for networking and knowledge sharing. The event’s overall goal is to strengthen the global diabetes community, translating research and advocacy to real life changes for people with diabetes.

- 200 IDF Member Associations from over 160 countries.

2. Learn
- 1000 posters
- 275h of scientific sessions
- 20h of CME credits

3. Discover
- 7 programme streams

ABOUT IDF

The International Diabetes Federation (IDF) is an umbrella organization of over 200 national diabetes associations in over 160 countries. It represents the interests of the growing number of people with diabetes and those at risk. The Federation has been leading the global diabetes community since 1950 and its mission is to promote diabetes care, prevention and a cure worldwide. For more information please visit www.idf.org.
